

FALL RIVER VALLEY — According to Shasta LAFCO Executive Director Jan Lopez and Northwest Lassen Fire Protection District Chief Brent Cassity, neither LAFCO nor the Fall River, McArthur or Northwest Lassen Fire Districts have changed their proposal map from the outset. The proposed boundaries shown are the same ones they originally agreed on. Lopez did issue a colored version of the proposed map which shows the Fall River Mills District in salmon and the service area in green. The overall sphere of influence is within the red dotted line. Lopez says they are setting up a public workshop for later this month. That workshop will be held in the Valley and its date and time announced.
