Shasta LAFCO

Are you able to help a concerned citizen distribute this letter to the commissioners listed below? I do not have their address.

Thank you so much for all you do for Shasta County.

Vice Chairman Larry Farr

Alternate Commissioner Irwin Fust

Commissioner Dick Fyten

Commissioner Brenda Haynes

Chairman Steve Morgan

Alternate Commissioner Bob Richardson

Commissioner James Yarbrough

Date: December 30, 2014

TO: Commissioner Baugh

CC:

Shasta LAFCO Commissioners
Shasta LAFCO Executive Officer Jan Lopez
The Shasta County Board of Supervisors, Clerk of the Board

I can't believe the degree of political stupidity you displayed at the Shasta LAFCO meeting on December 18, 2014 towards the Shasta LAFCO executive officer Jan Lopez and staff. How long have you been in the political arena, calculating every move, phrase, vote and then fall into the black hole of revenge? You need not to be a political genius to see your agenda is to destroy the Shasta LAFCO executive Jan Lopez and staff.

Where was your voice when the Shasta LAFCO's previous executive officer was collecting a salary and producing nothing, for how long? There has been no explanation as to why it was an accepted practice. Would you pay an employee at a business you owned for doing nothing, of course not, that not only is stupidly insane, it is counterproductive. So, why did it take a lawsuit for you to do your job? Had Jan Lopez and staff performed as the previous executive officer would you have displayed your incompetence so openly?

It seems you are berating the Shasta LAFCO executive officer Jan Lopez and staff for actually doing an enormous job in the prescribed timeline. I have watched and listen to Miss Lopez and I believe Miss Lopez is an extremely intelligent person and knows her job well. Is it maybe Miss Lopez's intellect threatens you?

I believe you successfully made a mockery of the commission. You've succeeded Mr. Baugh. I believe your actions really show what you really are, narcissistic. I also believe, sir, your priorities are misguided by guilt and revenge.

It is my perception you have created a very dangerous and costly road map for yourself and the members of the commission. What you have managed to create is a hostile environment and you have also surrounded it by a personal vendetta on your part. That moment in time when you made that decision, you successfully managed to lose all credibility now and in the future.

I also believe to prevent further disgrace to yourself and the commission, you need to resign from the commission immediately.

You are being watched from concerned citizens, church members and ultimately God.
